From the INTRODUCTION:

Humankind and the cosmos are deeply connected. There isn't humankind's existence and the animal and plant kingdom's existence: It is our existence. Humankind is not a superior species, but interrelated with all species, and connected to the universe, mentally, emotionally, physically and spiritually. There are many ways to gain knowledge, to heal, and to gain a deeper understanding of spirituality: One is to engage in ceremony.

These are personal ceremonies. The five cards included are not to be drawn but to be used specifically with these particular ceremonies.

…true happiness comes when one no longer desires or needs but trusts one's total life to Spirit. This is a feat many of us will not reach during this lifetime, so I am blessed to offer these ceremonies from Spirit. Use them wisely and with deepening respect.
